

since I was in major of finance in my undergraduate I would be more interested in scraping from financial market data.

5d, it is a data.frame.

6.4 dfl is data frame. df is sparkDataframe SparkR

6.5b, there is an error of the function. because there is no inherited method for this function

6.6b, the same as last one. the function for this data is no inherited method.
